Event date	<del>11-13 June 2020</del> - Postponed to 2021
Event Location	Burgas – Pomorie, Bulgaria
Organizing NDA	Bulgarian Dental Association
Local Contact name for registration and information	Assist.Prof. Dr. Nikolai Sharkov <a href="mailto:sharkov@omega.bg">sharkov@omega.bg</a> / <a href="mailto:office@bzs.bg">office@bzs.bg</a>

### Course 1

Course title	<b>Aesthetic Therapy of Mandibular Frontal Crowding</b>
Learning objectives	Overview about the different aesthetic possibilities <ul style="list-style-type: none"><li>• Treatment for the removal of anterior crowding</li><li>• Economic and therapeutic points of view</li></ul>
Keywords	mandibular frontal crowding, orthodontic treatment, economic treatment modalities
Speaker	<b>Tomasz Gedrange</b>
Speaker biography	<ul style="list-style-type: none"><li>• Professor and Director of Department of Orthodontics, Dresden University of Technology, Germany</li><li>• Study of dentistry at the Friedrich Schiller University (FSU) Jena, Germany</li><li>• Study of medicine at the Wroclaw Medical University, Poland</li><li>• 2002 Education as tutor in PBL (Problem based learning), Harvard University education</li><li>• programme 1993-1995 Assistant at the Institute of Pharmacology and Toxicology at the FSU Jena, Germany</li><li>• 2004-2011 Professor and Director of Department of Orthodontics, Preventive and Pediatric</li><li>• Dentistry Centre of Dentistry and Oral Health, Ernst-Moritz-Arndt-University, Greifswald, Germany</li><li>• Since 2010 – Professor in the department of dental surgery at Medical University of Wroclaw, Poland</li><li>• 2013 nomination from President Republic of Poland to Professor (the title of Presidential Professors)</li><li>• Since 2011 - Professor in Department of Orthodontics, Medical Faculty Carl Gustav Carus, Dresden University of Technology, Germany</li></ul>

### Course 2

## FDI CE Programme 2020 - Europe

Course title	<b>Double crown retained RDP as an alternative to all on x concepts</b>
Abstract / Learning objectives	<p>Implant and tooth-implant supported double-crown retained RDP with zirconia primary crowns and golden electro-planted secondary crowns as an alternative to all on x concepts. All on X concepts many times involve extracting restorable teeth which are not indicated for extraction to reduce the cost of treatment, to simplified procedure ant to shorten the treatment period. Combined tooth-implant supported double crown retained RDP allow to successfully connect tooth and implant as abutments for retention/support of RDP. That type of prosthesis enables to preserve the restorable teeth and its integration as prosthetic abutments in combination with additionally placed implants.</p> <p>Implant and tooth-implant supported double-crown retained RDP with zirconia primary crowns and golden electro-planted enable good retention of prosthesis, good oral hygiene which is very important for a patient who lost the teeth due to poor oral hygiene.</p>
Keywords	implant-retained prosthesis, alternative all on x design
Speaker	<b>Matej Kulis</b>
Speaker bio	<ul style="list-style-type: none"><li>• 2007 - 2013; School of Dental Medicine University of Zagreb, Zagreb, Croatia Dr. med. dent.</li><li>• 2014 - 2015; Practice at private practice clinic as Dr. med. dent., Zagreb, Croatia</li><li>• 2015 - present; Work at private practice clinic as Dr. med. dent., Ljubljana, Slovenia</li><li>• 2015 - 2018; Prosthodontic resident, Prosthodontics specialised training program for residents at University clinic Zagreb, Zagreb, Croatia</li><li>• 2017 - present; Lecturer at national and international courses;</li><li>• 2017 - present; Master degree of science of Oral Implantology at School of Dental Medicine University of Zagreb, Zagreb, Croatia 2018 - graduated as Prosthodontist specialist at University clinic Zagreb, Zagreb, Croatia 2019 - active member of Hrvatsko društvo za stomatološku protetiku/Croatina Prosthodontic Association</li></ul>
